

Linking Virginia's Assistive Technology (AT) Resources Together Early and Often

Two and one-half days designed to increase participant knowledge about assistive technology devices and services in Virginia. The training is structured to include plenty of 'hands-on' experience with a wide variety of AT and to answer participant questions about how assistive technology can benefit individuals with disabilities served in Virginia.

Dates: April 14-16, 2010
November 3-5, 2010
Location: Woodrow Wilson Rehabilitation Center (WWRC) [Directions](#)
